

## Solvency II

**arkksolutions**

After 14 years in the pipeline, Solvency II finally arrived in 2016. EIOPA's latest regulation requires the Insurance industry to report more information than ever before, and it is the first time that a common standard has been introduced to measure solvency requirements across the EU.

The final stage of Solvency II, Pillar 3, requires Insurers and Captive Managers to provide their Quantitative Reporting Templates in XBRL format. Building on our knowledge of XBRL, we have developed a solution designed to make Solvency II compliance as simple as filling in an Excel spreadsheet.

Solvency II reporting in XBRL doesn't have to be a burden. With built in population assistance, validation checks for multiple European jurisdictions and a full audit trail provided, Arkk Solutions' tool takes the hassle out of Pillar 3 reporting, giving you time to focus on the valuable information you've collected.

## HOW TO SUBMIT YOUR PILLAR 3 REPORTS IN JUST 5 DAYS:

### POPULATE THE TEMPLATE

Fill in your QRTs like any other spreadsheet, and use the formula assistance to check that you are in line with EIOPA's requirements

### CONVERT TO XBRL

After our secure portal transforms your spreadsheet into XBRL format, your documents pass a validation test

### DOWNLOAD AND SUBMIT

Send your report to your National Competent Authority

## Benefits

### ✔ **Enhanced Microsoft Excel Templates**

Validation checks provide instant feedback, so you know the data you're entering is compliant with EIOPA regulations

### ✔ **Secure online conversion**

Over the past six years, our trusted and robust portal has accurately converted 1,000's of documents into XBRL

### ✔ **Full audit trail**

View every version of your templates, download a full validation report and convert your Pillar 3 report back into Excel format for final checks, giving you assurance over your data's accuracy

### ✔ **QRT population support from qualified compliance experts**

Our compliance division are on hand to support you through your first round of Solvency II filing

### ✔ **Expert phone and e-mail support**

Our Customer Excellence Team are committed to supporting efficient and accurate submissions first time, and are highly rated by our 1,000's of clients
